Was fun to begin but frustrating in the middle and i just couldn't be arsed to finish it.. I would love to enjoy this game but it really boils down to pure RNG. The "grind" of your guys dying because you got a bunch of crap options constantly ruins the fun quickly.. It isn't for everyone. If you don't like the gameplay, you won't like the game, even if you like the humor. As for said gameplay: it's a turn-based card game with minimalistic visuals. If you find yourself with this problem, consider checking out West of Loathing.t It has semi-similar comedy and visuals. Gameplay is completely different, though. 7/10 I think the level of enjoyment depends on the person playing. This is how I'd rate my enjoyment. Buy at your own risk.. Amazing sense of humor and concept for a game. I loved it for the first few hours but eventually the game becomes entirely luck based and you end up grinding through adventurers to try and draw well on the same encounter. Lovely concept, but it needs some major balancing updates if its going to be playable for more than 5 hours.
